MEMORANDUM FOR: Chief, Headquarters Training

SUBJECT : Lecture on FI Operations

1. This will confirm our discussion of yesterday.
2. You and I reviewed the content of this lecture which will be based upon material not previously presented; in fact, we did not have the subject matter of previous lectures.
- 
4. You want me to emphasize the field point of view, indicating the type of assets we need and how to go about obtaining them.
5. You want an explanation of what the usual targets are and a typical assessment of the operational situation.
6. You said something about showing how we balance efficiency versus security.
7. We discussed the importance of dealing with the "outs" as well as with the "in's." You mentioned Iraq as an example. You talked about the in-breeding of Americans and how to avoid it.
8. We discussed the problem of changing moods and opportunities within some countries, and the significance of these changes to us.
9. I asked you about RMD's. You said you did not think that they had been previously mentioned. And we agreed that I would refer to them briefly so as to indicate to students that much thought has been given in headquarters and in the field to the tasks to be accomplished.
